## SPECIAL NOTICES.

PERRY DAVIS' VEGETABLE PAIN KILLER, after a thorough trial, by innumerable living witnesses, has proved itself the Medicine of the Age. Although there have been many medicinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world as the best Family Medicine ever introduced. It is an internal and external remedy. One positive proof of its efficacy is, that the sales have constantly increased, and wholly upon its own merits. The effect of the Pain Killer upon the patient, when taken internally in cases of Cold, Cough, Bowel Complaints, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and has won for it a name among medical preparations that can never be forgotten. Its success in removing pain, as an external remedy, in cases of Burns, Blisters, Sores, Sprains, Cuts, Sting of Insects, and other causes of suffering has seemed for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century.

## NOTICE.

THE MODEL SEWING MACHINE.  
(From the New York Herald.)

Prominent among the mechanical triumphs of this most ingenious age, common humanity compels us to hallow the Empire Sewing Machine, commended as justly styled perfection itself. Useful as have been the various sewing machines, from time to time presented to the public, each one of them has been cursed with some radical defect, which detracts from general utility. Warned by the experience of his predecessors, the inventor of the Empire Machine has produced an instrument, combining all the advantages for which others are vaunted, and obviating every defect which can be attributed to them by the most fastidious critic.

The Empire Machine is a marvellous combination of simplicity, economy and perfect workmanship, being durable, free from liability to get out of order, noiseless, and easy of operation. Its mechanical contrivances is such as to secure stability, freedom from accident, and accuracy as to workmanship. By the use of the patented shuttle and straight needles, it makes a stitch, which can neither rip nor ravel, while, at the same time, it can operate perfectly upon every species of material from leather to cambric, with threads of cotton, linen, or silk, from the finest to the coarsest number.

As the Empire Machine is gradually supplanting its more antique rivals, no one in want of a useful instrument of this description, be he or she tailor, confectioner, dressmaker or seamstress, can do otherwise than secure one of these economical and ingenious machines, suited alike for family and manufacturing purposes. The office of the Empire Manufacturing Co. is at No. 536 Broadway, New York City, where they are now supplying these Empire Machines at prices far below the real value of the instruments.—N. Y. Herald.

DEAFNESS, BLINDNESS AND CATARRH. Treated with the utmost success, by Dr. J. ISAACS, Oculist and Auriologist, (formerly of Leyden, Holland) No. 519 Pine Street, Philadelphia. GETTYSBURG:

Tuesday, November 20, 1866.

### AN APPRENTICE

To the Printing Business is wanted at this office.

### MONEY.

Our accounts for newspaper advertising, &c., have been neglected for some time; and we feel now, as "the powers that be" have removed us from office, that we are much in need of money to carry on our business and provide for our family. We have one or two heavy payments to make, and we ask those indebted to us either for newspaper or advertising, to "give us a lift" promptly, and we shall be much obliged to them. We would not ask it, but necessity prompts us. Those who receive their papers by mail, will please remit by the 1st of December, the sooner the better.

Non-paying subscribers are thus talked to by an editor out West:

"Wagons cannot run without wheels—boats without steam—bulldogs jump without legs, or newspapers carried on everlasting without money, no more than a dog can wag his tail when he has none. Our subscribers are all good; but what good does a man's good do when it won't do you any good? We have no doubt every one thinks that all have paid but him, and as we are a clever fellow, and Mr. Harbin is a little wiser, it will make no difference." Will some of our readers make a note of this?

A young lady in Quincy, Illinois, who has been ill for some time, died, as was supposed, a few days ago, was confined, and the body placed in the family vault. Yesterday one of the attendants heard, as he thought, subdued moans proceeding from the vault, and immediately broke open the door of the tomb. The lid of the coffin was removed, and to the astonishment and gratification of all, the young lady was found alive. Proper means were taken to restore her, and she will undoubtedly recover.

**A CORN FIELD IN A CITY.**—The largest corn field inside of any city can be seen in Des Moines at present. Mr. C. C. Van has one hundred and sixty acres of corn in one field in the city. That's the largest city field, and is a six-acre field, to be situated within the corporate limits of any town.

The Iowa State Register says: "One thing is sure—if the citizens of this community should ever be besieged they could raise enough provender for man and beast with the fortifications. Perhaps those who were instrumental in extending the city in every direction had this in view, and wished in such an emergency to close the gates of the city and be independent of the outer world—a self-sustaining community. Be this as it may, we challenge the world to compete with us in the size of city corn fields."

On Tuesday evening an accident of a horrible nature happened at the house of Mrs. Martha Davis, a widow, in Pittsburgh.

It appears that Miss Jennie Davis, an interesting young lady of some seventeen years of age, was pulling down a lamp filled with oil, which depended from the ceiling, preparatory to extinguishing it for the night. By some means or other the fastener gave way, and the lamp fell, striking the girl upon the breast, and exploded. She was immediately enveloped in flames, and as assistance arrived, was horribly burned about the neck, breast and shoulders. She lingered in great agony until the following day.

A case of death from fright is given in the Milwaukee *Wisconsin*, which occurred in Evansville, in that State. A child, five years of age, when playing on the steps, was threatened to be shut up in a dark room if he did not go in and stay in the house. The child, frightened, ran in, and fell in paroxysms on the floor. He begged his mother not to let the man shut him up, and he would never go on the steps again. He sickened from this fright and never recovered. When conscious, he begged his mother to keep the man away and he would never go on the steps again. And when the little fellow was dying he said, "Papa, don't let me die. I never will go on the steps again."

In 1835 there was but one house within the present city limits of Rock Island, Illinois. In 1840 the first newspaper was started; in 1844, the first church was built; in 1849 the thriving little town acquired a city charter and a telegraph office. In 1851 the prosperity of the city was assured by the completion of the Chicago and Rock Island Railroad. In 1860 the population was 5,600; in 1866, 11,000. The total annual assessment for 1865 was \$31,465.23. The annual exchange paid by the Bank of Rock Island exceeds \$2,000,000. The manufactures of the city are quite extensive. There are two coal mines now in operation near the city. The yield of the larger is 1,490,000 to 1,700,000 bushels per annum. The city has a fine system of public schools.

A letter just received from St. John's, New Brunswick, states that a part of the crew of the American whale ship Antelope, lost on Nantucket Island, October 6, had just arrived on steamer Wolf and Lion. The officers of the Antelope bring interesting information of discoveries made by G. F. Hall, respecting the Franklin expedition. Mr. Hall has in his possession gold watch, some silver spoons and other articles, supposed to have belonged to the Franklin party. He also learned that the remains of some of Franklin's men were lying under a boat in Committee Bay, where they had been placed by the natives after death. The natives would not permit Mr. Hall to go on to examine them, but as several vessels will winter in Nantucket Bay, it is believed Mr. Hall will secure assistance and push his way to where the remains are situated.

About five thousand freed people in the District of Columbia have been provided for during the past year and furnished transportation to places at which employment had been secured for them. It is stated in the Freedmen's Bureau circular that among a population of twenty-two thousand people in the District, probably not more than fifteen thousand can obtain work at fair wages, and the colored people are invited to avail themselves of the agency of the Bureau in giving them transportation to points where they can be furnished with employment.

The bill making habitual drunkenness a sufficient cause for divorce has passed the Vermont Legislature—13 to 11—just as a amendment requiring that the drunkenness be of two years' duration, previous to the finding of the trial.

The Railroad Robbery in Kentucky, FRANKLIN, Ky., November 8.—Further particulars of the railroad outrage show that the cars were thrown off the track about two o'clock this morning, about three and a half miles from here, by a band of robbers numbering ten or twelve. The engine turned over twice down an embankment of thirty feet. The Adams Express messenger narrowly escaped being burned to death. After robbing the passengers of about \$2,500 in money and watches, the robbers left in an easterly direction. A band of men from this vicinity went in pursuit early this morning. The robbers were blackened and otherwise disguised, and were not recognizable.

Non-paying subscribers are thus talked to by an editor out West:

"Wagons cannot run without wheels—boats without steam—bulldogs jump without legs, or newspapers carried on everlasting without money, no more than a dog can wag his tail when he has none. Our subscribers are all good; but what good does a man's good do when it won't do you any good? The lid of the coffin was removed, and to the astonishment and gratification of all, the young lady was found alive. Proper means were taken to restore her, and she will undoubtedly recover.

**THE PACIFIC WOOL TRADE.**—It is stated that the wool crop of California for 1866, so far marketed, is about 5,000,000 pounds, of which 3,000,000 pounds have been purchased for the mills in San Francisco, and the balance exported to the Atlantic States. Oregon this year produced 1,800,000 pounds of wool, 1,100,000 pounds being taken by her woolen mills, 300,000 pounds by San Francisco mills, and the balance exported. The wool used by the Pacific coast mills varies in value from sixteen to twenty seven cents per pound. Oregon wool, being cleaner and of finer quality, brings the highest price. California wool loses about fifty per cent, and Georgia forty per cent. in cleaning.

The seven young men who were in jail in Lawrence, Mass., for ten days, under sentence for an alleged riotous assault upon Robert Putnam, of Danvers, who is said to have used outrageous and treasonable language upon the occasion of the murder of the late President Lincoln, having been accidentally drawn in, and was most dreadfully mangled up to and above the elbow joint. Amputation of the arm was made by Drs. Huber and Horner, of this place, and, at last accounts, the sufferer was getting along comfortably.

A convention of the Union men of Franklin county was held at Chambersburg on Tuesday last, to express an opinion and give instructions as to their preference for U. S. Senator. The result was 73 votes of the delegates for Gov. Curtin, and 3 for others. Instructions were therefore given to their Representatives to support Gov. Curtin for U. S. Senator.

**Appointments.**

The Assistant Assessors of U. S. Revenue Tax for this county, have been appointed by Assessor Croftor. They are J. Cassatt Neely, Esq., of Gettysburg; Charles Hinckle, of Fairfield; Thomas G. Neely, of the York Springs District; and Geo. Stonemeyer, of Littlestown. Divisions are not as they previously were—and we cannot define the boundaries of each Assessor. There have been, of course, a good many disappointed applicants.

**Lyceum.**

We understand that measures are in progress for the establishment of a Lyceum in Gettysburg. We are pleased to see, it is a most interesting and instructive manner to spend the winter evenings; and the mental training will be found very beneficial in after life.

**Call Accepted.**

The Rev. J. A. Hoffmeyer, son of Rev. E. Hoffmeyer, deceased, formerly of this county, has accepted a call to the German Reformed Church in Carlisle.

The work of putting up the poles for the Atlantic and Great Western Telegraph Company is rapidly progressing, and the workmen have already reached Waynesboro' on their way East.

James Hobbs, a miner from Ia, was robbed of about \$9,000 in gold dust in a drinking saloon in Chicago on Friday, while on his return to his home in Michigan. Having entered a drinking saloon, he invited two young men whom he found there to drink with him, and, being anxious to sell his gold, inadvertently told them about it. They congratulated him on his good luck, and assured him that they could dispose of it to great advantage if he would but permit them to take it to a friend of theirs who lived but a few doors away. They got the gold, but didn't return with it.

**A YOUNG WOMAN CANVASSING.**—An Ohio paper says that a young woman living in the township of Springfield heard that a young man in the place was not likely to vote without some urging, and was halting between two opinions as to which way he would vote, it at all. She took her father's buggy on the day of election, went to the house of the absentee, brought him to the polls, "voiced him" for Shabbeler and the whole Union ticket, and took him home again.

The Morning Star, the third missionary ship built by the American Board of Foreign Missions, sailed from Boston on Monday on its first voyage. The interesting event was celebrated by appropriate religious services, in which Rev. Drs. Anderson, Bingham, Meigs, and Rev. N. G. Clark and Rev. F. R. Hooker took part. This ship was built by the contributions of Sabbath school children. Her present destination is the Sandwich Islands.

During the past year, according to the Louisville *Journal*, there have been one hundred and fifty two cases of stabbing in Kentucky, fifty one of which resulted in death.

## THE ADAMS SENTINEL

GETTYSBURG:

Tuesday, November 20, 1866.

### AN APPRENTICE

To the Printing Business is wanted at this office.

### MONEY.

Our accounts for newspaper advertising, &c., have been neglected for some time; and we feel now, as "the powers that be" have removed us from office, that we are much in need of money to carry on our business and provide for our family. We have one or two heavy payments to make, and we ask those indebted to us either for newspaper or advertising, to "give us a lift" promptly, and we shall be much obliged to them. We would not ask it, but necessity prompts us. Those who receive their papers by mail, will please remit by the 1st of December, the sooner the better.

Non-paying subscribers are thus talked to by an editor out West:

"Wagons cannot run without wheels—boats without steam—bulldogs jump without legs, or newspapers carried on everlasting without money, no more than a dog can wag his tail when he has none. Our subscribers are all good; but what good does a man's good do when it won't do you any good? We have no doubt every one thinks that all have paid but him, and as we are a clever fellow, and Mr. Harbin is a little wiser, it will make no difference." Will some of our readers make a note of this?

A young lady in Quincy, Illinois, who has been ill for some time, died, as was supposed, a few days ago, was confined, and the body placed in the family vault. Yesterday one of the attendants heard, as he thought, subdued moans proceeding from the vault, and immediately broke open the door of the tomb. The lid of the coffin was removed, and to the astonishment and gratification of all, the young lady was found alive. Proper means were taken to restore her, and she will undoubtedly recover.

**THE SOLDIERS' ORPHANS' HOMESTEAD.**—The exercises connected with the inauguration of the Soldiers' Orphans' Homestead will take place this (Tuesday) afternoon—commencing at 1-2 o'clock. The Sabbath Schools of the town are expected to participate; and there is a prospect of a large attendance from the country. If the day be fair there will be speaking in the afternoon at the Homestead. If not fair the exercises will be held in Christ Church. The exercises in the evening will be held in the Church. Besides Bishop Simpson and Rev. H. B. Newton, Rev. Alexander Reed, D. D., Rev. Dr. Clark, of Albany, Ex-Gov. Pollock; Generals Howard, Gregory and Holloman are expected to be present.

Bishop Simpson and Dr. Reed will speak in the afternoon at the "Home," and Rev. Mr. Newton and Dr. Clark, in the evening, at Christ Church.

We are sorry to announce the death of Rev. W. H. Garrison, at Cincinnati, on the 2d inst., of cholera. Mr. Garrison was a clergyman of the Lutheran Church, and very highly respected. He graduated at Pennsylvania College, in this place, and Theological Seminary, Rev. Mr. Zehring, of Jefferson, and Rev. Mr. Titzel, of Cincinnati.

Captn. Earmishan is marshal of the general procession; and Capt. Ullman, marshal of the Sabbath Schools.

### Expected Visitors.

A letter to us from Philadelphia informs us that on the 23d of 24th (Friday or Saturday) Gen. Meade, Mayor McMichael of Philadelphia, Gov. Geary, Col. Cameron, Mr. Fell, (President of the Philadelphia Union League), Mr. Rothermel, (Artist), with 15 or 20 other distinguished men, intend to visit Gettysburg for the purpose of viewing the Battle-field.

### Painful Event.

On Wednesday last, Mr. S. S. T. T. of Mount Pleasant township, was engaged in feeding a threshing machine, when his arm was accidentally drawn in, and was most dreadfully mangled up to and above the elbow joint. Amputation of the arm was made by Drs. Huber and Horner, of this place, and, at last accounts, the sufferer was getting along comfortably.

### Appointments.

The Assistant Assessors of U. S. Revenue Tax for this county, have been appointed by Assessor Croftor. They are J. Cassatt Neely, Esq., of Gettysburg; Charles Hinckle, of Fairfield; Thomas G. Neely, of the York Springs District; and Geo. Stonemeyer, of Littlestown. Divisions are not as they previously were—and we cannot define the boundaries of each Assessor. There have been, of course, a good many disappointed applicants.

### Appointments.

We learn from the Norristown *Republican* that Auditor General Hartman declined the appointment of Colonel of the 37th Regular Infantry, tendered him sometime since. Business engagements, occasioned partly by the ill health of the father of Gen. H., led him to refuse the position. It is his present intention to serve the term for which he was elected Auditor General.

This announcement, made of course by the *Advertiser*, settles the question of the succession in the Auditor General's office, where it was supposed some few weeks since a vacancy had been created by the resignation of the head of the Department. While all who know Gen. Hartman are gratified to know that the leading topic under consideration was the reconstruction plan now proposed by many leading men of all parties, by which general amnesty shall be offered to the South on their acceptance of universal suffrage with a property or intelligence qualification.

Prominent Southern men are co-operating with Republicans and Democrats in this effort.
